SEPTEMBER 15

Meteorological observations for the

PENNY PRESS, by Henry Ware, Optician, No. 7 West Fourth-street, September 14, 1859. O'clock. Barometer. Thermometer

The following is a list of letters de-tained for non-payment of postage at the Postoffice, in this city, September 14:

NINTE ANNUAL FAIR OF HAMILTON COUNTY AGRICULTURAL SOCIETY .- This fair continues during this day, and closes to-morrow. The best way to reach it is by the Hamilton Railroad, whose time card can be found advertised inthis paper.

The ride will do you good, taking you from the stereotype sameness of the city to the varicty and newness of the country. As you near Carthage on the right, going out, you see the costly and convenient Lunatic Asylum; on the left, immediately opposite the fair-grounds, you see the extensive stone buildings, known as the City Infirmary, in which the city keeps her professional paupers.

THE CANDIDATES ON THE TRACE. Going out, we find the cars containing nu-merous candidates bound for the fair, each expecting, finally, to be awarded the office of County Treasurer. Near us sat a Republican candidate, unused to the din and commution of politics, whose head was aching in prenitory admonition of the jarring nerve-distractions to be endured in running over the many curved track of politics. One of the regular-faculty candidates for Treasurer, from the American side, was magnetizing the said Republican head, by manipulations, very much after the style Professor Ferrie, the French barber, used to adopt, in soothing his subjects spatial in chair-tensorial before he subjects seated in chair-tonsorial before he shaved him or sheared him of his strength. The stoms of alarm seemed all to be hushed by the gentle fingering of the Doctor, whose name we menzies, and by the time the cars reached the fair-ground the patient was all right to meet the people.

ON THE PAIR-GROUND. While the candidates were shaking hands with the voters, we passed around the stails, observing the best of a meager supply of cattle, and in the ring the movements of the colts and the roadsters.

IMPORTANT QUERY. Well, we have seen the Hamilton County Fair. Its large poster had declared it "open to the world! competition invited in all the We soon found all the world had classes !" not entered, nor was there competition in all classes. What's the matter? Where's the fault? Are fairs a failure in this county? An evident effort has been made for a fair; a very respectable number of people are upon the ground, but the display does not evince a progress which we know exists in all the elements, which, if brought together, make fairs representative.

DISAFFECTION AMONG MEMBERS. The officers seemed to be working earnestly, but somewhat under a subjection, caused by a real or unfounded complaint that their policy had been impolitic; their expedient of doubling the price of membership a discouragement to participants. The disaffection caused by the movement, which, although it was corrected, has caused an opposition which has usurped a large portion of the time of members pro and con, electioneering for a retention of the Board,

RECTION OF OFFICERS TO-DAY. From ten o'clock this morning until three Police Court yesterday and acquitted, on a P. M. to-day, there will be drumming and intriguing, the election for the Board of Directors taking place during those hours. We see by the bills that John K. Green, the former President, bas resigned. We hear of the names of J. W. Kennedy, now Vice-President, as a canndidate of the Regulars, and of Charles L. Gano as a candidate of the Opposition.

nity of at least a third-rate county for an expetition degrades the value and moral character of her medals, cups and diplomas. We should be sorry to believe that the best vegetables of the county were exhibited on the grounds yesterday. We saw some samples of grounds yesterday. We saw some samples of wheat, however, which deserve premiums. The seedling grape exhibited by a Frenchman of Delhi, named Eugene Huser, would have honored a place in the Palace Garden Exhibi-

Some superior apples, penches and grapes were on exhibition, and the fountain around a living tree is quite a feature.

AGRICULTURAL IMPLEMENTS. A number of plows, a rotary harrow, and an improved straw-cutter, cider-mill and other novelties, combined in one machine, were on exhibition.

THE SHOW TO-DAY. The exhibition to-day will be of farm protic manufactures, paintings, &c. The only articles of this list on exhibition of merit are the fruits. The horses of all-work, how-ever, will be the card for to-day: these we believe will be a good show. The excite ment of the election will give some interest

TO-MORROW. The blood-horses are to be exhibited to-

So far the entries of live stock amount to 210: the dead stock, so called, to 450.

We bespeak an interest to this fair by the people; it is for their interest, and for the encouragement of producers, mechanics and stock-raisers. But, at this time, two fairs are under way in the city, and the most prominent exhibitors are looking toward the State Fair at Zanesville, on the 22nd inst. Let all feel an interest in restaring the Ham. Let all feel an interest in restoring the Hamilton County Fair to the point in public favor it once attained. We can reform when we realize our true condition.

A fight occurred on the street-railroad car about five o'clock, yesterday, as the train was nearing the stopping point, on Ninth-street, between Councilman Shafer, of the Ninth Ward, and a man named Hugh Jackson, who resides in the Fourth Ward. Jackson was quite disorderly in the car, and amused himself for some time by pushing and crowding passengers about. All went very well until he came to the aforesaid "city dad," corner Sixth and Sycamore-streets, for the who could not control his risabilities. He gave benefit of the Harrison-street (Colored) church. Jackson a pretty sound drubbing, and then

NEWPORT LODGE, No. 358 OF FREE AND AC-

NEWPORT LODGE, No. 358 OF FREE AND ACCEPTED MASONS—HALL DERICATED.—Last night was performed the ceremonies of dedicating the Masonic Hall, and great interest was manifested, not only by members, but by outsiders, great numbers of whom were spectators of the grand and imposing performances. The representatives of the Grand Lodge of Kentucky offanized is the hall of the Sons of Temperance, in the second story of the building, and then proceeded to the third story, the one designed for the occupation of the Masonic Order.

Having marched thither in procession, an exordium on Masonry was pronounced by Mr. Lewis, the Marshal. It was short, eloquent and full of strong points. Heclaimed Masonry to be as old as the diration of the human race, but not fully established till the days of King Soton an. Antid all the changes and revolutions of ages, while nations have risen, flourished, decayed and discoolved, the Order had stood immutatly and united. It was a universal institution; the moral sun never set upon its empire. It numbered among its members Sotomou, its great patron, John the Evangelist and John the Haptist. Washington, Jefferson, and hearly all the patriots of the nation, since the foundation of the Government. Although not a religious society, it was the handmaid to religion and moral ity. Other benevolent societies were burbranches of this oldest of all.

The beautiful piece of music entitled "Peace be within thywalls," was the songaccompanied by music on the melodeon, by Miss Lewis.

Then came the mystic ceremonics of dedication, the meaning of which must ever remain hidden from all but the initiated. The dedication was to "Masonry," to "virtue" and to "universal benevolence."

These were followed by an address by Rey, Mr. Jeffreys, of Newport, who represented the Carlot of the Peace of the Effects, of Newport, who represented the Carlot of the Peace of

These were followed by an address by Rev. MrJeffreys, of Newport, who represented the Grand
Master of the State. The address was short, but fail
of pith and sentiment. He, too, dwelt on the sncient
character of the institution, its benevolence, ex-conding charity to the iting, to the dying and the bereaved family. He exhorted Musous to have but one
heart, the heart of benevolence, but one hand, the
band of charity; to not talk Masoury merely, but

He said that while discord reigned without, harmony dwelt within; while gravitation held the outward universe together, brotherly love was the great chain that bound in indisabilible bones the moral universe. It was a gentle, yet strong cham, and could never be broken. It was not compressed within latitude or longitude—it had no limitation of length, breadth, depth or hight. If members would prove faithful they would soon be admitted to see the Great Grand Master in the celestial Lodge. He exhorted the ladies to benevolence, to possess strong hearts rather than strong minds.

The exercises were then brought to a close, so far as outsiders were concerned.

The officers of the new lodge are us fellows: Wm. Smith, W. M. W. P. Duniap, S. R.; George P. Weisster, J. R.; — Lewis, S. D.; Harvey Brit, J. D.; A. Frimm, Sec.; R. H. Hamer, Tressurer.
